

LINE MALDIVES PVT LTD

Ship Agency - Logistic Services - Marine
Construction - Power & Industrial Supply

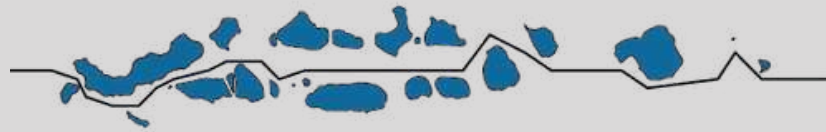

HI THERE!

We're Line Maldives—your local partner for getting critical work done across the islands. From coastal protection and marine construction to industrial and power-system supply, and from ship agency to logistic services, we connect the pieces so you can focus on the build, the guest, or the operation—not the logistics.

What to expect from us

- On-time, no-surprise delivery: Clear timelines, proactive updates, and disciplined execution.
- Local know-how: Methods and scheduling tuned to Maldivian ports, tides, and inter-island realities.
- Assured quality: Genuine/OEM parts, documented procedures, and HSE at the core of every job.
- One accountable team: Single point of contact from planning to handover

LINE MALDIVES PVT LTD

ABOUT COMPANY

Line Maldives Pvt Ltd delivers practical infrastructure and supply solutions tailored to the Maldives. We build and protect marine assets, source and supply construction materials, heavy equipment & vehicles, and power-system components (including Cummins® generator parts), and coordinate site logistics and distribution across islands. Our teams pair local expertise with strong vendor networks to keep your project moving—safely and predictably.

Vision

To be the Maldives' most trusted project and supply partner—fast, predictable, and secure—by combining expert people, robust processes, and responsive technology.

Supply

LINE MALDIVES PVT LTD

VESSEL AGENT SERVICES

We provide full agency for liner, tramp, project, and small vessels calling Maldivian ports and harbours.

Operational scope

Clearances & Port Interface: Inward/outward clearance, berth & pilotage arrangement, NOR/statement of facts, port dues management

Husbandry: Crew changes & visas, medical assistance, hotel/transfer coordination, CTM, mail & documentation

Bunkers & Provisions: Bunkering coordination, freshwater supply, reputable ship chandlers, bonded stores

Spares & Logistics: Last-mile delivery of spares/stores to vessel, coordination with OEMs and courier lines, temporary storage if required

Cargo Handling: Supervision of break-bulk and heavy/oversize cargo discharge/load, tally & stevedoring liaison, equipment booking

Compliance & Reporting: Timely documentation, port/immigration/customs procedures, daily situation reports & ETA updates

Emergency Support: Rapid escalation to surveyors/repair teams, coordination with authorities

Marine Construction

Our marine construction expertise leverages our in-depth knowledge of the Maldivian seascape and our robust logistics capabilities. We manage and execute projects such as breakwater development, quay-wall construction, and coastal protection. By providing the supply chain for materials like boulder rock, cement, and steel sheet piles, and deploying our own marine equipment and skilled crews, we offer a streamlined, cost-effective solution for building resilient waterfront infrastructure.

Domestic Distribution and Site logistics

We bridge the gap between global supply points and remote local destinations. Our services encompass handling everything from full container loads (FCL) to less-than-container loads (LCL). Once in the Maldives, our owned and partnered vessel network takes over, ensuring reliable, scheduled inter-island distribution. This door-to-door coverage, managed under one roof, provides unparalleled simplicity and reliability for your shipments.

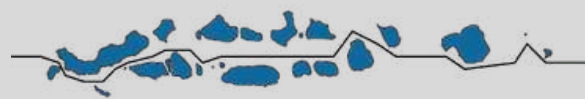

Heavy Lift and Oversize Cargo

Transporting heavy or oversized items across multiple islands requires specialized planning and equipment. Our team is expert in handling cargo that cannot be containerized, such as generators, heavy machinery, and construction equipment. We manage the entire process, including route surveys, securing necessary permits, and employing specialized lifting gear and vessels to ensure the safe and secure delivery of your most critical and valuable assets.

Break Bulk Cargo

For cargo that is best shipped unpackaged, we provide comprehensive break bulk handling services. We efficiently manage the loading, stowage, sea-transport, and discharge of non-containerized items like steel rods, pipes, and timber. Our experienced stevedores and project teams ensure careful handling to prevent damage, making us the ideal partner for construction and industrial supplies.

LINE MALDIVES PVT LTD

PROJECT LOGISTICS: END-TO-END SUPPORT FOR MAJOR PROJECTS

We provide integrated logistics management for large-scale developments, handling everything from bulk construction materials to daily site sustenance. Our service ensures your project continues uninterrupted, no matter how remote the location.

Our comprehensive scope includes:

- **Primary Materials:** End-to-end handling of marine construction assets (rock boulders, sheet piles), heavy equipment, and oversized structures.
- **Site Sustenance:** Reliable, scheduled supply of critical day-to-day needs including fuel, water, food, and operational consumables.
- **Process Integration:** We synchronize international freight, customs clearance, and inter-island transport into one seamless, accountable process.

We transform the logistical challenges of the archipelago into a competitive advantage, guaranteeing all materials—both strategic and routine—arrive on site, on time, and in sequence.

SUPPLY

We supply various products that our team procures through our partners and deliver it to your door step using or logistics channels

Premium Power Generators, Spares, and Filters

We supply generators and genuine spares from top brands like Cummins, Volvo, Caterpillar, Perkins, and Stamford alternators. Our solutions are built for the Maldivian climate, ensuring reliable prime or standby power with full lifecycle support delivered directly to your site.

Electrical Components

As a trusted supplier, we provide critical electrical infrastructure components from leading brands Semptra and Schneider. This includes transformers, switchgears, panel boards, and generator control units. We ensure the integrity of your power distribution system from the main intake to final circuits, supplying equipment that meets international safety and performance standards.

High-Capacity Fuel and Water Tanks

We supply robust, high-capacity fuel and water storage tanks, designed for both industrial and commercial applications. Our tanks are prefabricated for quality control and assembled efficiently on-site by our specialized teams. This solution is essential for ensuring operational continuity and resource security across the islands, particularly for resorts and remote projects.

Cables, HV, LV Cu, XLPE, Cables

We offer an extensive inventory of high-voltage (HV) and low-voltage (LV) cables, including durable copper core and armoured cables suitable for direct burial and harsh conditions. Whether for main power transmission, distribution networks, or internal wiring, we supply the correct cable specifications to ensure safety, efficiency, and longevity in your electrical installations.

Comprehensive Steel Portfolio for Construction

We meet all your structural and construction needs with a full portfolio of steel products. This includes steel sheets, pipes, angle bars, I-beams, and C-columns. Sourced for strength and corrosion resistance, these materials are essential for frameworks, roofing, marine construction, and industrial projects, providing the solid foundation for building across the Maldives.

LINE MALDIVES PVT LTD

PERISHABLE, COW-DUNG & GENERAL GOODS SUPPLY

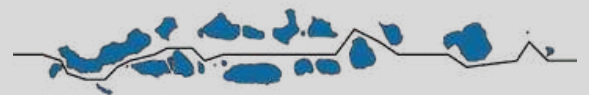

FROM OUR VESSELS TO YOUR RESORT: INTEGRATED SUPPLY OF PERISHABLE & GENERAL GOODS

Leveraging our core expertise as a leading ship agent for foreign-going vessels, Line Maldives has developed a seamless supply channel for the lifeblood of the Maldivian tourism and business sector: perishable goods and essential general items.

While our agency services efficiently manage the port call for container ships and liners, our supply division ensures the critical contents of those containers—your weekly necessities—are delivered with the same speed and care.

Our Scope of Supply Includes:

- **Perishable Goods:** Consistent, scheduled supply of fresh fruits, vegetables, dairy products, and frozen meats and seafood, sourced for quality and handled with cold-chain integrity from origin to your kitchen door.
- **Canned & Dry Goods:** A reliable supply of canned foods, dry goods, beverages, and other non-perishable food items to stock your pantries and storerooms.
- **General Hardware & Consumables:** Everything from cleaning supplies, plumbing fixtures, and basic tools to hospitality essentials like toilet tissue, linens, and guest amenities.

LINE MALDIVES PVT LTD

WHY PARTNER WITH US?

1

Single-Source Accountability

We manage the entire chain—from vessel agency to final delivery. This eliminates coordination gaps between multiple vendors, providing you with one accountable team and a seamless, hassle-free experience.

2

Predictable Scheduling

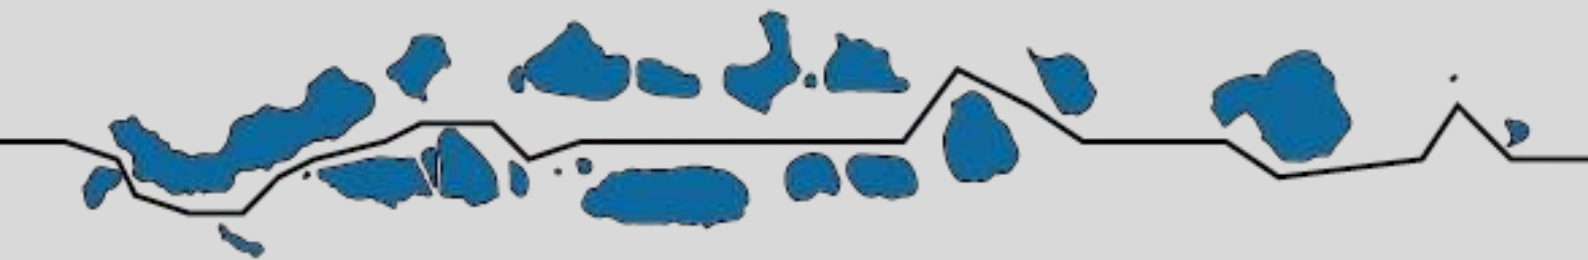

Our direct control over port operations provides real-time visibility and accurate ETAs. This allows for precise discharge and distribution planning, ensuring time-sensitive perishables and critical supplies arrive as scheduled.

3

Island-Wide Reach

No destination is too remote. Our extensive domestic network of owned and partnered vessels guarantees reliable, scheduled delivery to resorts and businesses across the entire Maldivian archipelago.
